

GORRHINO®

JEEP® WRANGLER JK | JL | JT GLADIATOR

BLAZE YOUR OWN TRAIL

2019

GO FOR IT

It all started in 1975 with a dream and a goal; build the best accessories for trucks and Jeeps with the best mix of function and style. For drivers with passion and purpose, Go Rhino meets the challenge. Engineering unique products, Go Rhino can transform every trip into an adventure; from the beach to the mountains, from the store to off road destinations as far as you can go. Built with quality materials and workmanship to match, Go Rhino delivers the value and confidence to just say Blaze Your Own Trail and just **GO FOR IT.**

GO RHINO®

It comes down to three things we strive to get right every single time.

FIT.

Designed specifically to fit the contours of each Jeep®.

FUNCTION.

Functional, user-friendly. Designs that meet the distinctive needs of every Jeep® owner. Customize for maximum utility and appeal on the street, for on the trail and the everywhere in between.

STYLE.

Stand out with innovative engineering and timeless styling that makes a statement as unique as you.

**SO GO AHEAD.GO FOR IT.
GO RHINO.**

G Rockline® Stubby Rear Bumper (Part # 371100T)

H Hood Hinge Light Mount (Part #731060T)

I Hard Top Rear Light Mount (Part #599502T)

ROCKLINE® STUBBY FRONT WINCH BUMPER

Rockline® Stubby style front bumper is winch ready and designed for high clearance use (Available for JL and JK). There are no obstacles in your adventure with this tough yet compact full featured bumper. Whether your off-roading in steep rocky terrain and need a winch ready bumper and easy to reach patented (D790,408) Hook style D-Ring shackle mounts or just need some extra light mounts for your overlanding adventure, the Go Rhino Rockline® stubby is ready to meet those needs. Available with a center hoop for additional light mounting above the winch.

- Easy installation with no cutting or drilling
- Pre-slotted top mount area for winch (up to 12,000 lb capacity)
- Rockline® Bumper not rated for use with tow bars
- Constructed of 3/16" cold rolled steel
- Textured black powder coat finish
- 5 year limited warranty

Removable mesh frame

Signature rhino horn D-ring shackle mount
(US Patent # D790,408)

Tubular center hoop with
light mount area

Bumper only - Part #331100T
Bumper with welded 1.75" tubular center hoop - Part #331101T
Optional fairlead mount available (Sold separately) - Part #332000T
Optional lower steel skid plate (Sold separately) - Part #332100T

ROCKLINE® STUBBY FRONT WINCH BUMPER

A Rockline® Lower Skid Plate (Part #332100T)

B Rockline® Winch Fairlead Plate (Part #332000T)

ROCKLINE® FULL FRONT WINCH BUMPER

Rockline® Full front bumper is winch ready and designed for enhanced clearance use (Available for JL and JK). The side ends of the bumper are tapered upward to give extra tire clearance but still have same width as factory full fenders. There are no obstacles in your adventure with this tough full featured bumper. Whether your off-roading in steep trails and need a winch ready bumper and easy to reach patented (D790,408) Hook style D-Ring shackle mounts or just need some extra light mounts for your overlanding adventure, the Go Rhino Rockline® Full is ready to meet those needs. Available with a center hoop for additional light mount area above the winch.

- Easy installation with no cutting or drilling
- Pre-slotted top mount area for winch (up to 12,000 lb capacity)
- Rockline® Bumper not rated for use with tow bars
- Constructed of cold rolled steel
- Textured black powder coat finish
- 5 year limited warranty

Recessed light mount for 20" double row LED bar or four 3" cube LEDs

Removable mesh frame

Signature rhino horn D-ring shackle mount (US Patent # D790,408)

Tubular center hoop with light mount area

Bumper only - Part #331200T
Bumper with welded 1.75" tubular center hoop - Part #331201T
Optional fairlead mount available (Sold separately) - Part #332000T
Optional lower steel skid plate (Sold separately) - Part #332100T

ROCKLINE® FULL FRONT WINCH BUMPER

A Rockline® Lower Skid Plate (Part #332100T)

B Hood Latch Light Mount (Part #730035T) Lights not included

ROCKLINE® REAR BUMPER

The Rockline® rear bumper is a steel replacement bumper designed in two distinct styles. Rockline® Stubby style rear bumper is designed for high clearance use and ideal for weekend of road trails. Rockline® Full rear bumper replaces the limited function OE bumper with a full-width and wrap around design that offers extra protection for vehicle corner body panels (Available for JL and JK). The Go Rhino patented (D790,408) hook style D-ring shackle mounts allow the bumper to be used for quick recovery work while the drop center step helps with roof access-making this bumper the perfect choice for both rock crawling or overlanding.

- Easy installation with no cutting or drilling
- Patented rhino horn D-ring shackle mounts (US Patent #D790,408)
- Recessed light mount areas in bumper ends to protect 3" LED cube lights (Lights sold separately)
- Constructed of 3/16" cold rolled steel
- Textured black powder coat finish
- 5 Year limited warranty
- Bumper compatible with factory hitch receiver

ROCKLINE® STUBBY BUMPER

*Bumper - Part #371100T

ROCKLINE® FULL BUMPER

*Bumper - Part #371200T

Signature rhino horn D-ring shackle mount
(US Patent # D790,408)

Drop center style bumper with step area, perfect for large tires

3" cube LED's can be mounted behind steal mesh covers

*JL Application Shown

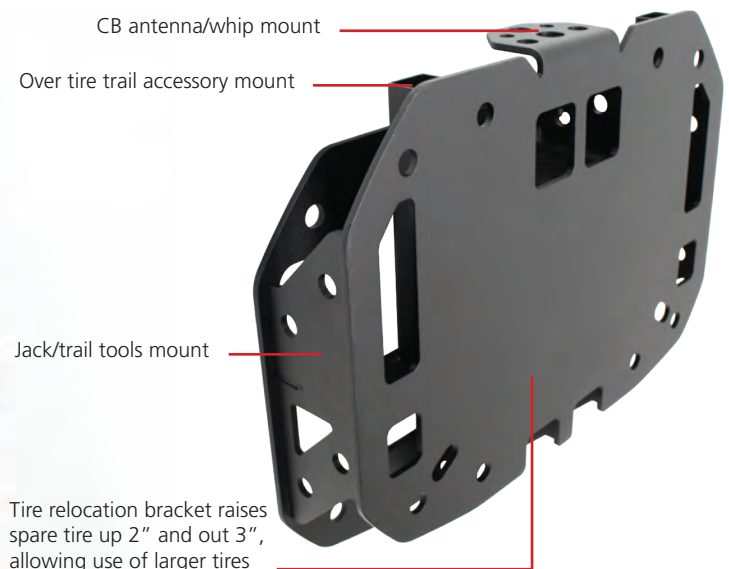

SPARE TIRE RELOCATION KIT

Rear spare tire relocation bracket and accessory mount allows larger spare tires to be mounted on tailgate door without losing factory functionality. Accessories and trail tools like shovels and jacks can be mounted to side area of the bracket for the Wrangler (Available for JL and JK).

- Tire relocation bracket reuses factory tow hitch and raises spare tire up 2" and out 3", allowing use of larger tires
- Reuses factory backup camera and 3rd brake light (CHMSL)
- Easy installation with no cutting or drilling
- Textured black powder coat
- 5 year limited warranty

Part #372000T

TRAILLINE®

A Trailline® Front Winch Bumper
(Part #230121T)

B Hood Latch Light Mount
(Part #730035T)
Lights not included

C Windshield Cowl Mount
(Part #730231T)
Lights not included

D Dominator D1 Side Step
(Part #D14506T)

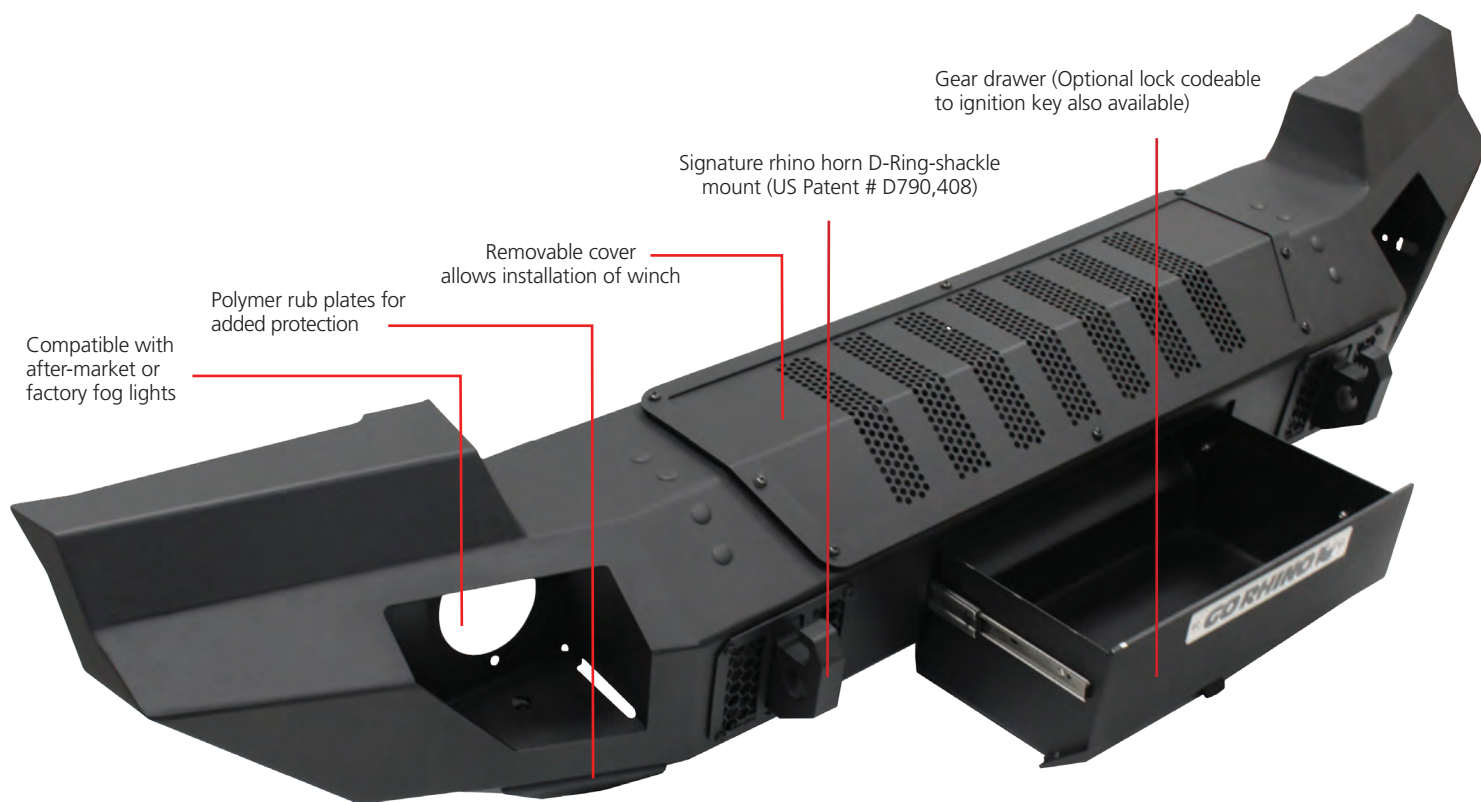

TRAILLINE® FRONT BUMPER

The Trailline® winch-ready front bumper is designed in 3 distinct styles to accommodate diverse adventures. The stubby bumper has an aggressive off road high clearance function for maximum tire clearance. The straight mid-width bumper is a perfect steel replacement for a factory width bumper. The full-width bumper ends lines up with factory fenders to fill out the front of the vehicle.

Features:

- 3 unique bumper styles with 3 optional light mount bar designs
- Grade 8 mounting fasteners coated in GEOMET Black for superior strength and corrosion resistance
- Fully welded 1" thick dual function patented rhino hook shackle mounts for up to 7/8" D-Ring pin (US Patent # D790,408)
- Front gear drawer with latch (optional locks for ignition keys available)
- Compatible with round factory lights
- Industry standard winch mounting slots, for up to 12,000 pound capacity winch, cut directly into the top surface
- Replaceable polymer rub plates help protect approach angle area of bumper
- CNC laser cut and formed 3/16" and 12 GA. thick steel and fully welded hand finished seams
- Textured black powder coat finish
- 5 year limited warranty

TRAILLINE® FRONT BUMPER

The Trailline® front winch bumper has 3 distinct styles, with something for everyone. The stubby bumper is an aggressive style made for maximum tire clearance, the straight bumper is most like the classic Jeep Wrangler look, and the full bumper fills out the front end and lines up with the stock fenders.

TRAILLINE® STUBBY BUMPER

Bumper - Part #230111T

TRAILLINE® STRAIGHT BUMPER

Bumper - Part #230116T

TRAILLINE® FULL BUMPER

Bumper - Part #230121T

TRAILLINE® LIGHT MOUNT BARS

Add some more function and style to the Trailline® Front Bumper with the Trailline® series Light Mount Bars. 3 distinct styles offer multiple mounting points for lights above, below, or inside the light mount bar.

Trailline® 10
Light Mount Bar
Part #25101T

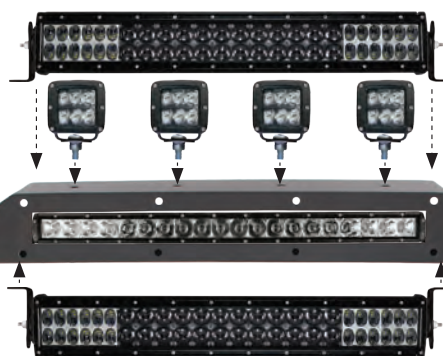

Trailline® 20
Light Mount Bar
Part #25102T

Trailline® 30
Light Mount Bar
Part #25103T

Light Plates for Straight and Full Bumpers

Optional light plates allow installation of 3" cube or 4" square LED lights in the Trailline® straight or full bumpers. Light plates are not necessary for LED light installation in stubby bumpers.

Trailline® Light Mount Bars

Mount up to 20" LED light bars above, below or inside light mount bars (10" max for Trailline 30). The top side also allows for installation of up to four 3" cube lights.

Compatible with
aftermarket or
factory fog lights

Light Mount Bar (US Patent # D757,316)

TRAILLINE® REAR BUMPERS

The Trailline® Rear Bumper complements the Trailline® front bumper with the same function and style for the Jeep Wrangler JK and JL.

Features:

- Fully welded 1" thick dual function patented rhino hook shackle mounts for up to 7/8" D-Ring pin (US Patent # D790,408)
- Allows for installation of SRQ or compatible flush-mount lights
- Bumper made from cold-rolled steel
- Compatible with factory hitch
- Provisions to add optional Go Rhino swing away tire carriers
- Grade 8 mounting fasteners coated in GEOMET Black for superior strength and corrosion resistance
- Drop center step for oversized tire clearance
- Texture black powder coat finish
- 5 year limited warranty

TRAILLINE® STUBBY REAR BUMPER

*Bumper - Part #27210T

TRAILLINE® STRAIGHT REAR BUMPER

*Bumper - Part #27215T

TRAILLINE® FULL REAR BUMPER

*Bumper - Part #27220T

Signature rhino horn D-ring shackle mount
(US Patent # D790,408)

Drop center style bumper with step
area, perfect for large tires

Mesh vent covers can be
replaced with single row
flush-mount lights

*JK Application Shown

TRAILLINE® LIFT ASSIST SWING AWAY TIRE CARRIER

Trailline lift assist swing away tire carrier is a back saving solution which allows JL and JK Wrangler owners with GR Rear bumpers to lower the spare tire with a provided hand crank or consumer provided cordless drill. The tire can be lowered or raised as needed without strain on the body. The added swing away feature makes it easy to access lift glass and tailgate as well. The Lift Assist Tire Carrier is perfect for use with larger and oversize tires and bolts onto Go Rhino Trailline® and Rockline® Rear Bumpers (sold separately).

Features:

- ◆ Bumper mounted lift assist swing away tire carrier comes paired up with choice of 3 Go Rhino rear bumper options
- ◆ Lift assist tire carrier mounts directly to bumper and swings away when needed
- ◆ Tire carrier can be raised or lowered with included hand crank or cordless drill
- ◆ Enclosed gears are protected from exterior elements
- ◆ Quick release pins allow ease of use when lowering tire or securing tire carrier when vehicle is moving
- ◆ Textured black powder coat finish
- ◆ 5 year limited warranty

Trailline® swing away tire carrier for tailgate hinges allows use with factory and aftermarket bumpers. The swing away feature makes it easy to access lift glass and tailgate as well. The Carrier is perfect for use with larger and oversize tires and bolts onto Go Rhino Trailline® and Rockline® Rear Bumpers (sold separately).

Features:

- Swing Away Tire Carrier allows for use with factory and aftermarket bumpers
- Swing Away Tire Carrier Tire Carrier mounts to factory tailgate hinges
- Tire carrier swings open with tailgate
- Textured black powder coat finish
- 5 year limited warranty

DOMINATOR D6

Dominator D6 side steps allow for easy access in and out of the vehicle and provides slider protection along the rocker panel of vehicle. The step area is 6" wide and has a raised hex pattern for no slip grip. Optional bolt-on 4" drop steps are ideal for Jeep® Wranglers with lifts or larger wheels and tires.

FEATURES:

- Dual Purpose design and steel construction allows Dominator D6 to be used as a step and a rock slider
- Mounts tight to rocker panel for maximum ground clearance and protection
- Optional bolt-on 4" drop steps available for use with lifted vehicles and larger tires - sold in Pairs
- Punched steel step plate area has raised hex pattern to provide no slip grip
- Textured black powder coat finish
- 5 year limited warranty

DOMINATOR D6 HITCH STEP & DROP STEP

Dominator D6 hitch steps are available in Textured black powder coat finish with a 5-year warranty, and are compatible with 2" receiver hitches.

Part #D6360T

The Dominator D6 Drop Step accessory is perfect for all D6s installed on lifted or taller trucks.

Patented punched galvanized steel step pads for extra grip (US Patent # D717,708)

Part #D6410000T

DOMINATOR D6 SIDE STEPS

DOMINATOR DS

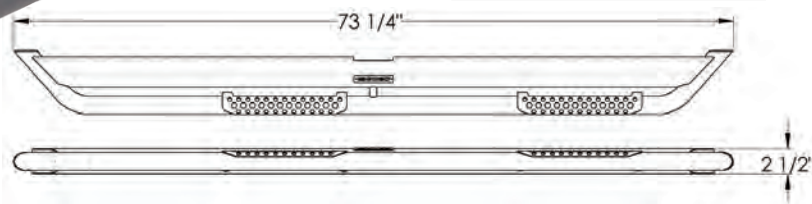

Dominator DS Sliders for Jeep® Wrangler with optional removable step pads that can be mounted in several positions along the length of the outer rub rail. Step has full length slider design on bottom surface. Removable steps can be positioned in several places between the outer run rail. Allows users to access raised vehicles more easily and provides rocker panel protection at the same time. No-drill brackets included.

FEATURES:

- Full length slider with outer rub rail and removable steel step pads
- Steel pads can be positioned in several locations along rub rail
- Great for high clearance use when step area is still needed
- Protects rocker panel from trail obstacles and road debris
- Easy Installation-No drilling required
- Uses OEM step and rock rail mount locations
- Textured black powder coat finish
- 5 year limited warranty

2 door models also
available

Dominator DSS Sliders W/ rub rail and optional full length step. Slider has full length slider design on bottom surface. Full length step area has raised steel surface for safe grip. Allows users to access raised vehicles more easily and provides rocker panel protection at the same time. No-drill brackets included.

FEATURES:

- ◆ Full length slider with outer rub rail and removable full length steel step
- ◆ Full length steel step can be removed
- ◆ Great for high clearance use when step area is still needed
- ◆ Protects rocker panel from trail obstacles and road debris
- ◆ Easy Installation-No drilling required
- ◆ Uses OEM step and rock rail mount locations
- ◆ Textured black powder coat finish
- ◆ 5 year limited warranty

DOMINATOR D1

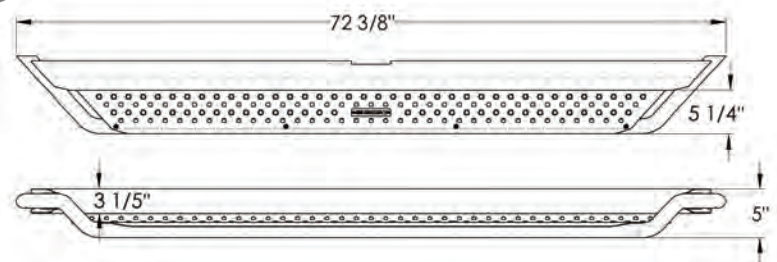

Dominator D1 Side Steps with full length drop down steps and full length slider design on bottom surface. Allows users to access raised vehicles more easily and provides rocker panel protection at the same time. Full length step area has raised steel surface for safe grip and easy entry and exit.

FEATURES:

- ◆ Full length drop down step is 3 1/5" below outside edge of vehicle
- ◆ Provides sturdy full length step area for enhanced access
- ◆ Great for accessing vehicles with lift kits and oversize tires
- ◆ Protects rocker panel from trail obstacles and road debris
- ◆ Easy installation-no drilling required
- ◆ Uses OEM step and rock rail mount locations
- ◆ Textured black powder coat finish
- ◆ 5 Year Limited Warranty

XE SERIES WINDSHIELD LIGHT FRAME

Light will never be a problem again with the XE Series Windshield Light Frame for the Jeep Wrangler JL. It allows the mounting of a 50" LED and light bar to the top of the windshield for superior lighting whenever it's required.

Features:

- Heavy duty uprights mount directly to A-pillar
- Low profile design increases stability
- Black geomet hardware
- Easy no-drill installation
- Textured black powder coat
- 5 year limited warranty

JEEP® WLF WINDSHIELD LIGHT FRAME

Part No. 738300T
Allows for installation of eight 3" cube lights

The Go Rhino WLF Windshield Light Frame for the 07-18 Jeep® JK Wrangler and JK Wrangler Unlimited offers a total lighting solution. Only Go Rhino allows you to choose from a broad range of lighting options both across the windshield and on the A-pillar with a product designed for strength, style, and full-frame protection.

Features:

- ◆ Heavy duty uprights mount directly to A-pillar
- ◆ 4 Different options protect a variety of lights and light bars
- ◆ Unique side-to-side lateral rack design increases stability and reduces vibration
- ◆ Exclusive vertical stacking tabs allow for additional lower lighting options
- ◆ Rubber-isolated mounting system
- ◆ Black geomet hardware
- ◆ Easy no-drill installation
- ◆ Textured black powder coat
- ◆ 5 year limited warranty

Part No. 5943003T

JL HARD TOP MOUNTING KIT

Hard top mount kits securely mount a Go Rhino SRM100 Rack over the roof of the Jeep Wrangler JL using factory rain rails. Proprietary design for use with SRM Rack eliminates need for cross bars. Clamp style design bolts directly to rain rails for an easy installation.

FEATURES:

- ◆ Clamps to factory rain rails
- ◆ No drill or cutting required
- ◆ Need for cross bars is eliminated providing low profile design
- ◆ Rubber gaskets protect hard top finish
- ◆ Geomet black hardware
- ◆ 5 year limited warranty

6 Bracket - Part #5910011T
4 Bracket - Part #5910010T

SRM RACK MOUNTING KITS

SRM Series Roof Rack Mounting Kits provide flexibility for mounting racks without the need for cross bars.

SRM Fixed Mounting Kit Part #5910001T

Features:

- ◆ Formed steel construction
- ◆ Textured black powder coat
- ◆ 5 year limited warranty
- ◆ Drilling required

SRM Multi-Axis Mounting Kit Part #5910000T

Features:

- ◆ Patent pending, secure, self-sealing mounting system
- ◆ Formed steel construction
- ◆ Textured black powder coat
- ◆ 5 year limited warranty
- ◆ Drilling required

GO RHINO OVERLAND RACK KITS

OVERLAND RACKS FOR 2DR AND 4DR JEEP JK WRANGLER

Customize your adventure with the Go Rhino Overhead Overland Rack system. Overland Rack system combines overhead cargo management with front facing lighting options and rear taillight protection.

Overland Racks come complete with Go Rhino Windshield Light Frames and protective steel rear taillight covers. Overland Racks mount to windshield light frame in front and use taillight area to mount in rear of vehicle. Body to body mounting design improves load displacement integrity and makes for quieter driving and wheeling.

Mainframe is constructed of thick tubular steel and finished in a tough durable Textured black powder coating. Adjustable cross bars attach to steel C channel so cargo racks, tents, and gear boxes can be positioned as needed.

Go Rhino Overhead Overland racks require Go Rhino Windshield Light Frames to install and are sold complete with the WLF or without. Choose from 4 windshield light frames with 4 different lighting variations:

- 2 Door JK Wrangler Part #5992000T
- 4 Door JK Wrangler Unlimited Part #5994000T
- 4 Door JK Wrangler Unlimited with WLF mounting one 50" LED Light bar: Part #59941500T
- 4 Door JK Wrangler Unlimited with WLF mounting eight 3" cube lights: Part #59948300T
- 4 Door JK Wrangler Unlimited with WLF mounting four 3" cube lights and one 30" LED Light bar: Part #59941343T
- 4 Door JK Wrangler Unlimited with WLF mounting two 3" cube lights and one 40" LED Light bar: Part #59941423T
- 2 Door JK Wrangler with WLF mounting one 50" LED Light bar: Part #59921500T
- 2 Door JK Wrangler with WLF mounting eight 3" cube lights: Part #9928300T
- 2 Door JK Wrangler with WLF mounting four 3" cube lights and one 30" LED Light bar: Part #59921343T
- 2 Door JK Wrangler with WLF mounting two 3" cube lights and one 40" LED Light bar: Part #59921423T

The Trailline® fenders are stylish, high-angled steel fenders that come in two widths to enhance any JK adventure. The Trailline® fenders help increase tire clearance and articulation while increasing vehicle body protection. Fenders are constructed of steel with textured black powder coat finish. The unique smooth underside helps prevent mud and debris from accumulating in the wheel well. Easy Installation and fits perfectly with Go Rhino Inner Fender Liners- sold separately.

Features:

- Allows for the use of factory turn signal lenses
- Trailline® Series features unique curved design available in 3" and 6" widths
- Increases tire clearance while adding unique style
- Textured Black Powder coat finish
- 5 year limited warranty
- Trailline® Steel Fenders sold in pairs of front and pairs of rear fenders

ROADLINE® FENDERS

Roadline® steel fenders bring the classic flat-top design to enhance any JK or JL adventure and come in three widths. The Roadline® fenders help increase tire clearance and articulation while increasing vehicle body protection. Fenders are constructed of steel with textured black powder coat finish. The unique smooth underside helps prevent mud and debris from accumulating in the wheel well. Easy Installation and fits perfectly with Go Rhino Inner Fender Liners- sold separately.

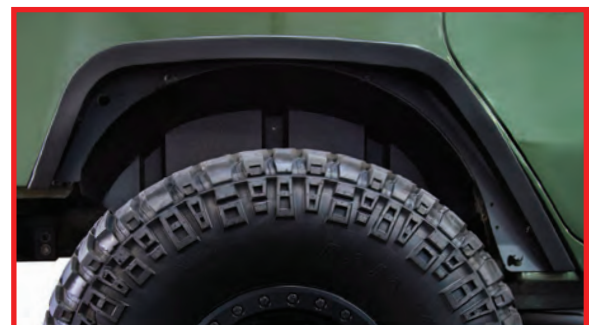

Features:

- Stylish flat-top design
- Amber lens included for side marker light
- Increases tire clearance while adding unique style
- Textured Black Powder coat finish
- 5 year limited warranty
- Roadline® Steel Fenders sold in pairs of front and pairs of rear fenders

Front Roadline Fender

Rear Roadline Fender

Roadline Fender Width

Features multi-dimensional design in 3", 6" and 9" widths for front and 3 and 6" widths for rear

Rockline® steel fenders come in two widths to add an aggressive, off-road look to the Jeep Wrangler JL. The Rockline® fenders help increase tire clearance and articulation while increasing vehicle body protection. Fenders are constructed of steel with textured black powder coat finish. The unique smooth underside helps prevent mud and debris from accumulating in the wheel well. Easy Installation and fits perfectly with Go Rhino Inner Fender Liners sold separately.

Features:

- Adds style and function to JL Wranglers plus added body protection
- Allows for the use of factory turn signal
- Rockline® Series features unique curved design available in 3" and 6" widths for JL Wranglers for more tire clearance
- Increases tire clearance while adding unique style to JL Wranglers
- Jeep® JL Wrangler Steel Fenders sold in pairs of front and pairs of rear fenders
- Features multi-dimensional design in 3", 6" and 9" widths for front and 3 and 6" widths for rear
- Textured Black Powder coat finish
- 5 year limited warranty

INNER FENDER LINERS

Go Rhino Jeep Wrangler inner fender liners are custom formed and offer a finished look for wheel wells with enhanced protection for vehicle. Go Rhino liners help protect vehicle from rocks and debris inside the wheel well when driving on or off road. The liners are made of formed aluminum with a Textured black powder coat finish. They are sold in pairs. Front Inner fender liners feature a 2 piece design with a mesh vent to allow airflow to engine. Rear inner fender liners are 1 piece construction and form fit to vehicle. Front and Rear sets sold separately.

Features:

- Wheel well inner fender liners help provide enhanced protection for wheel wells, suspension and engine.
- Two-piece design allows for easy installation for front inner liners
- One-piece design allows for easy installation for rear inner liners
- Front Liners feature hex mesh vents to allow airflow to engine
- Helps protect inside of wheel wells and engine from rocks and debris
- Aluminum construction with Textured black powder coated finish
- Ships UPS or FedEx at standard rates-not oversize
- Go Rhino Inner Fender Liners are compatible with all Go Rhino Steel Fenders
- Textured Black Powder coat finish
- 5 year limited warranty

It is essential to have a tall jack mount when wheeling in a Jeep® Wrangler or if larger tires and lift kits are installed on the vehicle. The exterior jack mount from Go Rhino provides a convenient exterior mounting solution for these jacks. Mounting the jack on the exterior of the vehicle is crucial to having it ready at hand and also to free up precious cargo space inside the Jeep®.

Features:

- Exclusive triangular design and three point mounting system to eliminate rattling against the body of vehicle.
- Fits any height farm style tall jacks including major name brands.
- Exterior mounting frees up precious cargo space inside vehicle
- Strong Steel Construction
- No Drill Install uses factory side step mounts on lower rocker and cowl mounts on upper section
- Textured black powder coat
- 5 year limited warranty

CHROME

- Streamline, single wall design, rolled edge
- Stainless Steel Torca Accuseal™ clamp included
- Chrome over stainless steel
- Limited lifetime warranty

BLACK CHROME

- Streamline, single wall design, rolled edge
- Stainless Steel Torca Accuseal™ clamp included
- Black Chrome over stainless steel
- Limited lifetime warranty

BLACK TEXTURED

- Streamline, single wall design, rolled edge
- Stainless Steel Torca Accuseal™ clamp included
- Textured black powder coat
- Limited lifetime warranty

FAST STYLE

- New fast style design, double wall construction
- Stainless Steel Torca Accuseal™ clamp included
- Textured black powder coat
- Limited lifetime warranty
