Dominator Xtreme Side Steps

Functional, rugged off-road styling

DOMINATOR XTREME D1 The Dominator 1-Piece Step (D1) features a single, full length drop down step. The step design allows users to access raised vehicles more easily and provides rocker panel protection at the same time.

- Full length drop down step
- Protects rocker panel from trail obstacles and road debris
- Steel step plate is removable and paintable
- Uses OEM step and rock rail mount locations

D1

DOMINATOR XTREME DSS The Dominator Slider-Step (DSS) features a full length slider design on bottom surface and raised steel upper surface for safe grip. The step plate is removable for a minimal look or paintable for customization.

- Full length slider with outer rub rail and removable full length steel step
- Great for high clearance use when step area is still needed
- Protects rocker panel from trail obstacles and road debris
- Steel step plate is removable and paintable
- Uses OEM step and rock rail mount locations

DSS

DOMINATOR XTREME D2 The Dominator 2-Step (D2) welded sidebars are available in cab length and feature dropped hoop steps to make entry and exit easy.

- One-piece main bar constructed of steel tubing
- Rugged style enhances truck appearance
- Dual hoop steps on each side
- Punched, galvanized steel step pads for extra no-slip grip
- Step plates are removable and paintable

D2

DOMINATOR XTREME DS The Dominator Slider (DS) features a full length rub rail and allows users to access raised vehicles more easily while providing rocker panel protection. The step pads can be mounted in different positions along the outer rail or removed entirely.

- Full length slider with outer rub rail and removable steel step pads
- Steel pads can be positioned in several locations along rub rail
- Great for high clearance use when step area is still needed
- Uses OEM step and rock rail mount locations

DS

DOMINATOR XTREME D6 The Dominator 6-inch Step (D6) features a wide step area and raised hex pattern for no-slip grip. Optional bolt-on 4-inch drop steps available.

- Dual purpose design and steel construction allows D6 to be used as a step and a rock slider
- Punched steel step plate area has raised hex pattern to provide no slip grip
- Mounts tight to rocker panel for maximum ground clearance and protection

D6

NEW! DOMINATOR XTREME FRAME SLIDER

Extreme off road conditions call for extreme protection. Our frame mount steel sliders are designed for extreme rocker and body protection, Frame mounted for added protection and strength when used for on or off road driving, featuring zinc coated primer with matte black powder coat finish.

- Frame mounted steel sliders for rocker panel and body protection
- One piece welded construction for extra durability
- Perfect for all driving conditions-on and off road
- Sold in pairs with mounting hardware included
- Black powder coat finish
- 1 year limited finish warranty

FS

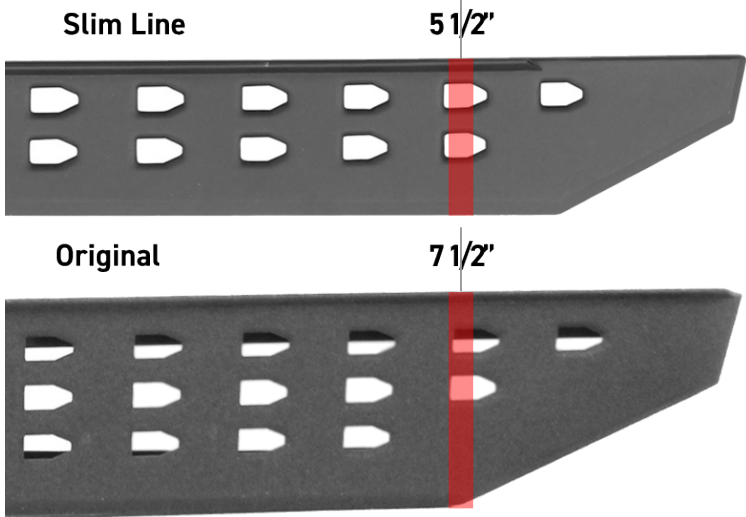

RB Running Boards

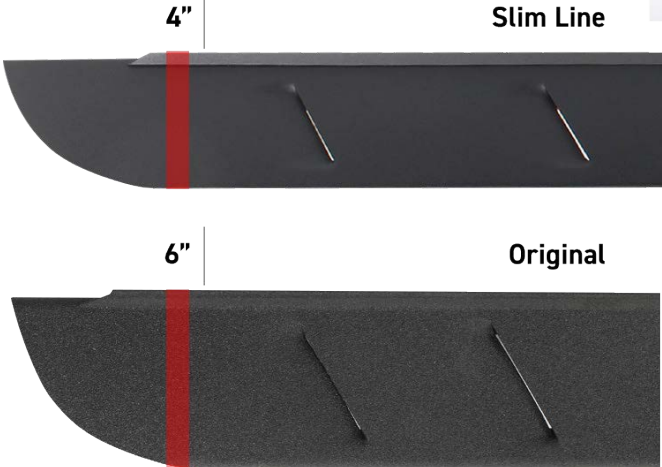

Go Rhino's best selling RB Series running boards give Jeeps the latest Raptor-inspired style and function.

Heavy duty, classic and modern styled running boards are built tough and protect your Jeep from the punishment of the road and environment while providing a wide full-length step platform for easy entry front or back doors. Built from 16-gauge zinc-coated steel, choose bullet stamped RB20 or louvered design RB10. Both are available in original and slim widths. Finished in textured black powder coat or protective bedliner coating for corrosion, impact and abrasion resistance.

RB20 Running Boards

RB10 Running Boards

V-Series V3 Aluminum Side Steps

Rugged good looks & strength - ideal for extreme climates

- First in a new series of all-aluminum side steps with OEM style and quality
- Aerodynamic, countoured, five-inch wide ellipse-shaped board with textured black powdercoat finish
- Multi dimensional, anti-slip tire tread pattern polymer step pads with carved appearance
- Internal tracks allow for easy bracket attachment and hidden brackets
- Dual aluminum extrusion core and replaceable poly end caps

XRS Xtreme Rack System

for JEEP® Gladiator JT

*THE XRS IS MORE THAN JUST A RACK...
IT'S A COMPLETE SYSTEM.*

THE FOUNDATION OF THE XRS SYSTEM IS THE XTREME RACK, WHICH HAS A CONTOURED, APPLICATION-SPECIFIC FIT, AND FEATURES GO RHINO'S EXCLUSIVE 4-CORE CROSSBAR SYSTEM.

- A** Equipped with Go Rhino's exclusive 4-CORE cross rails, the extruded track system that works with any 1/4x20 hex bolt, is Quick Fist®-compatible and provides unlimited accessory mounting options for gear and trail tools
- B** Compatible with most rooftop tents - 300 lb. dynamic and 600 lb. static weight rating
- C** Constructed with a combination of steel and aluminum for an optimum balance of strength and weight savings
- D** 2" diameter front and rear aluminum crossbars tie the rack together
- E** Uprights feature integrated MOLLE pattern holes, 1/4-20 threaded inserts at top and bottom, rear mounting holes for handles or other accessories and welded rods for additional tie downs
- F** Includes one Rhino Accessory Gear Plate that can be attached on top, sides or interior. Additional plates can be purchased (#5950020T).
- G** No drill, complete bolt-on installation. Available with factory bed track mounting systems or bed rail clamp on mounting brackets. Mounting brackets have built-in tie down points
- H** Wide variety of Go Rhino accessories available
