## INSTALLATION INSTRUCTIONS

**Note:** If this equipment security box is to be installed in conjunction with a Go Rhino false floor or equipment security box transfer kit, complete the installation of the false floor or equipment security box transfer kit.

**Step-1** Open the equipment security box drawer and remove the (3) flanged button head screws securing each side of the equipment security box drawer to the drawer slides, remove the drawer and set aside.

**Step-2** With assistance place the equipment security box on top of the false floor cover. Align the attachment holes in the base of the equipment security box with the holes in the false floor cover and rivet-nuts in the false floor brackets, Attach the equipment security box to the false floor cover and brackets using the (4) 1/4" x 3/4" button head screws and (4) 1/4" flat washers supplied with the false floor. Tighten the screws.

**Step-2.1** With assistance place the equipment security box on top of the equipment security box transfer kit brackets. Align the attachment holes in the base of the equipment security box with the rivet-nuts in the equipment security box transfer kit brackets. Attach the equipment security box to the transfer kit brackets using the (4) 1/4" x 3/4" button head screws (4) 1/4" lock washers and (4) 1/4" flat washers supplied with the equipment security box transfer kit.
